

FREY— CONFIDENCE, CALIFORNIA

Cooper Kessel, Architect and Associates

Jack and Pat Frey

Custom design and construction of a 3,190 sq. ft. Contemporary style home in Confidence, California which includes a solar heated radiant floor system along with many special features and design elements. The owners are very artistic and did hand carving, stained glass and stonework on this home. This is the second home we have done for the Frey's. Construction was completed in 1990.
